## Board of Governors

*The regular monthly meeting of the University's Governors was held on Friday, 2 May. The following matters were among those addressed.*

### New Rental Fees for University Residences

At its monthly meeting, the Board gave approval for rental increases at all student residences. The increases will take effect in September, 1980.

At the Lister Hall Residence Complex, room and board for an eight month period in a double occupancy room will total \$1,890, a \$270 increase. A single room will be \$310 more, bringing the total to \$2,290. The same rooms for a four-month contract will be \$420, double, and \$625, single. A monthly contract for a double room will be \$115; the rate for single occupancy will be \$170.

In Pembina Hall, the graduate student residence, a standard room, including room and board, will increase by \$255 to a cost of \$2,090 while a large room will be \$2,340, \$275 more. These figures cover only a eight-month contract.

A double occupancy room with board at Faculté Saint-Jean residence will cost \$1,690 while a single will rise by \$205 to \$1,945.

Turning to apartments in the Housing Union Building (HUB), the monthly rates are as follows: one person unit \$180, unfurnished, and \$208, furnished; two person unit \$260 and \$290; four person unit, \$400 and \$465. A special end unit will be \$280, an increase of \$10.

The North Garneau Housing Community will see rents increase by \$42, totalling \$564 per month.

The only rent increases, which will take effect 1 July 1980, are for those houses situated in Michener Park. The three bedroom rowhouses will go up to \$260 and the two bedrooms to \$245. The two bedroom unit in Vanier House will increase to \$245 as well. Second and third floor maisonettes will increase by \$20 to \$240 while the ground floor maisonettes will go up to \$210. In the Galbraith tower, a two bedroom unit will cost \$235. All changes are on a monthly basis.

### Appointment

The Academic Concerns Committee of the Board reported for information the appointment of R.A. Silverman to the chair of the Department of Sociology. Dr. Silverman will assume his duties on 1 August 1980 for a three-year term.

A native of Toronto, Dr. Silverman received his post-secondary education at the University of Toronto and the University of Pennsylvania, obtaining Master of Arts and Doctor of Philosophy degrees at the later institution.

He began his teaching career in 1968 as an instructor in the University of Pennsylvania's sociology department. In 1971, Dr. Silverman joined the sociology department of the University of Western Ontario. He came to The University of Alberta in 1975.

Dr. Silverman was director of undergraduate studies in sociology

at this University and is currently Co-ordinator of the Centre for Criminological Research. His major area of research is criminology and he has acted as the principal investigator on projects involving both the federal and provincial Solicitor General's Departments.

Dr. Silverman will replace Dr. White who was recently appointed Dean of the Faculty of Arts.

### Nursing One of Three Faculties to Expand Quotas

People in The University of Alberta's Faculties of Nursing, Business Administration and Commerce, and Rehabilitation Medicine are all still smiling two weeks later. The University, having received a grant of \$810,000 from the provincial government, will expand the Faculties' admission quotas for 1980-81.

Nursing will be able to accept 144 students (double the current quota) in the first year of the Post RN, Bachelor of Science Nursing program; enrolment in Business Administration and Commerce will increase from 410 to 485; and the Department of Occupational Therapy within Rehabilitation Medicine will have a quota of 36, an increase of six students.

In Nursing, the increase of 72 students includes 36 students in Edmonton in September and another group of 36 which will be worked into the program in stages.

Dr. Zelmer, Dean of Nursing, says that there are sufficient applications now for the first

category and that nursing representatives will be visiting St. Paul, Red Deer, Grande Prairie, and Fort McMurray next month to work out the details of the teaching of courses in one of those centres. Courses would be taught in the remaining centres in the ensuing years.

Basically, the Faculty will offer one year of university study over a two-year period off campus. This will allow individuals to hold jobs while pursuing a nursing education. They would attend the University full-time for the final year of study.

The expansion will necessitate the filling of five new full-time positions in the Faculty.

In Business Administration and Commerce, the increase of 75 students is made up of 50 first-year students and 25 transfer students. Eight new full-time positions will be established.

The increase in Rehabilitation Medicine is of a supplemental nature and no new positions are required.

For Nursing, the government grant pertains to the first intake of students in September of 1980 and plans are underway to seek further funding to extend the expansion beyond 1980-81. It will not be necessary for Business Administration and Commerce to apply for additional funding.

### East Asian Studies

At its meeting on 2 May, the Governors gave formal approval to the proposed establishment of a Department of East Asian Languages and Literatures within the Faculty of Arts.

Implementation of this new Department is intended for the fall of 1980. Such action, however, is subject to the receipt of special new program funding from the provincial government. The projected date to begin operation, that is teaching students, is the fall of 1981, in order to allow time for new positions to be advertised and new courses approved.

The objective of the new department will be to bring this existing program, staff and students of Chinese and Japanese, into one academic and administrative unit. By creating such a department, the University is also recognizing East Asian languages and literatures, like those of Europe, as significant cultural forces in the history of civilization.

The University of Alberta has the largest enrolments in Japanese, exceeding those at all other major Canadian universities. The University will be the only major centre in the three prairie provinces to provide such study, the nearest major centres now with East Asian departments are the Universities of British Columbia and Toronto.

The operating budget for this

first year is expected to be \$172,680 while \$212,452 is the projected budget for the second year.

#### Paving and Grounds

The Board of Governors approved a total expenditure of \$962,000 for a composite of several projects included in the Paving and Grounds Program for 1980-81. The program consists of various non-transferable line items in the Capital Budget requested by the Board of Governors and approved by the government.

In round figures provision is made for the upgrading of certain parking lots at \$205,000, new tennis courts at \$107,000, up-grading of outdoor lighting in certain areas at \$100,000, and hard landscaping (i.e. paving, walks, curbs, gutters, irrigation drainage, etc.) at \$552,000.

Some of the funding for planting is a carry-over from previous years when work could not be completed because of inclement weather. Last year, only one bid was received on

the call for tenders and this was rejected by the Board Building Committee as being too high. This decision has now proved to be a good one since a 10 percent saving on the same items is achieved this year, even after allowing for the normally expected inflationary increase.

Carmacks Construction Ltd. won the contract as the lowest of three bidders. Their work will include, as weather permits, sites such as 88th Avenue/University Health Sciences, Home Economics/D Zone parking, Coal Institute Building, Chemical/Mineral Engineering, Faculty Club, V Zone and Z Zone, HUB South Entrance, some peripheral walks, two tennis courts north of Kelsey Hall, additional exterior signage, and improvement of exterior lighting as a security measure against personal attacks and vandalism.

#### New Member

A new Board member was welcomed at the meeting on 2 May. Janet Bentley has been appointed as a public member

by the Minister for Advanced Education and Manpower.

Mrs. Bentley, who holds a Bachelor of Arts degree from this University, lives in Edmonton and has long been associated with, and involved in, a wide variety of community-related endeavors. For example, she was a prime mover in the establishment of the Citadel Theatre and played a very active role on the committees that supported the XI Commonwealth Games.

In 1975, Mrs. Bentley was chosen to represent Women of the Arts during the City of Edmonton International Women's Year. She continues her active involvement in volunteer and professional organizations, and has served as President of the Junior League in Edmonton and as ladies' Chairman for the National Convention of the Canadian Institute of Chartered Accountants. As a part of her responsibilities as a Governor of The University of Alberta, Mrs. Bentley will be a member of the Committee on Community Relations. □

## The Norma Freifield Reserve Reading Room

At the 2 May meeting of the University's Board of Governors, unanimous approval was given to a proposal that the Reserve Reading Room in the Cameron Library be named the Norma Freifield Reserve Reading Room. The change in nomenclature honors the massive contribution which Miss Freifield, current head of the University Library's Circulation Services, has made to this institution throughout her thirty-nine year career at The University of Alberta.

Miss Freifield, who will retire at the end of May, became a University employee in 1941. At the time of her joining the University the Library was housed in 110 Arts Building. In 1946, Miss Freifield was placed in charge of the Circulation Desk and Stacks and, in 1951, was appointed Circulation Librarian with

wider responsibilities, including the operation of the Reserve Reading Room. In 1970, Miss Freifield assumed her present duties and, since that time, has been responsible for the circulation in the Coutts, Rutherford, and Cameron Libraries.

Miss Freifield will be remembered long by students, staff, and alumni of The University of Alberta. It was she who made the ultimate decision concerning disputes over fines and lost material.

The Board, in approving the change of name of the Reserve Reading Room, expressed deep gratitude for the services of Miss Freifield. Only rarely are members of the University's non-teaching staff honored in such a lasting and public fashion. Yet without the devotion and dedication of Miss Freifield and her colleagues in the administrative ranks, this University would never have achieved the international stature it now possesses, nor could the goals of this institution, the education of students and the advancement of knowledge, ever be attained. □

## Dr. Horowitz addresses our Friends

We should not be content to be considered as merely a "pretty good" University. Faculty mobility should be increased either by the offering of term appointments or also by exchange with other educational, industrial and governmental institutions. Where will we recruit teaching and research staff in the late 1980s and 1990s, if we do not make efforts now to nurture and promote young scholars who display imagination, originality and determination? These are only a few of the topics addressed in a wide ranging discussion of the University's priorities which Myer Horowitz presented to the annual meeting of The Friends of The University of Alberta a week last Monday, 5 May.

Dr. Horowitz very quickly warmed to the topic of his address. He noted the increase in funding from the provincial government over the last four decades. While not hesitating to criticize deficiencies when appropriate, Dr. Horowitz stated that, relative to institutions elsewhere in the country, "we don't have too much to complain about—if all that we are interested in is a pretty good University." But, the President continued, we have the potential of becoming a "great" institution, and this needs more imaginative thinking than is evidenced in the need to cut positions at the University, despite the nine and one half percent increase in the current year's budget. Dr. Horowitz however, did praise the provincial government, inasmuch as in the current budget year it has recognized the need for special funds for innovative and exciting projects—for example, the Post-RN BSc program which will be taken to people working outside the metropolitan area of Edmonton, in such centres as Grande Prairie, St. Paul, Fort McMurray and Red Deer. As an example of the government's support, Dr. Horowitz also pointed to the more than fifty percent increase in this year's

budget for the replacement and purchase of capital equipment. The University, he said, suffers from an inflation rate in the purchase of material essential for research and teaching, which is much higher than the country's average.

Also in the area of funding, the President adumbrated his conception that The University of Alberta could become, as it were, a public institution privately endowed. Relations with funding agencies other than governments should be fostered and enhanced. Endowed chairs, fellowships, and the like could significantly ameliorate conditions in lean years and, in years of plenty, increase the University ability to attain its goals.

The University's problems are not solved yet, however. According to Dr. Horowitz, a "painful" experience occurred recently when he and his colleagues in the senior administration had to decide where to wield the axe. This year, as last, the base operating budget is just too low. In 1979-80, twenty-seven permanent academic positions had to be cut. In 1980-81, a further twenty positions will be lost.

Dr. Horowitz was not downcast or gloomy as he spoke to the Friends about the University's priorities, for all that the twenty lost positions disturb him deeply. "We are responsible. We serve society well—I feel that more today than I did a year ago. There isn't a development of significance that hasn't touched some of my colleagues. We are sensitive to changing needs and so we are willing to alter priorities. But, I promise you that we shall do so only with sense, with compassion, with feeling, with sensitivity because we will not destroy the heart of this University in the process, no matter what the pressures of the outside. We can become great, truly great. We have the roots and the foundation to permit us to grow in the direction of

excellence. Governments must be responsive; for if they aren't, they fail not only the University but the total society. We also need non-governmental support. I hope you will help me achieve my aim."

The Friends of The University of Alberta responded with warmth to Dr. Horowitz's address. They, the Friends, ever since their first meeting in October 1943 during the presidency of Dr. Newton, have worked—often behind the scenes—to promote the welfare of this institution. Although the annual sponsorship of the Henry Marshall Tory Lecture is perhaps their most public activity, The Friends of The University of Alberta have contributed widely to this University. They

have assisted in the purchase of research equipment, they have made a special effort to help our Library obtain rare and essential books and works of reference, they have provided annual scholarships and bursaries. In addition, they have assisted the publication of books and papers by members of the University.

In the constitution of the Friends there is the following statement: "It will be the aim of the Friends to be helpful in fostering good public relations and in bringing the needs of the Institution to an ever-widening circle, to the end that the University shall fulfil the high hopes and aspirations of those who launched it on its way in 1907." □

## University Sells Land to Government

The University of Alberta has sold approximately forty-eight acres in the north-east corner of its Edmonton Research Station (the University Farm) to the provincial government. President Horowitz announced this during an address to the annual meeting of The Friends of The University of Alberta on Monday, 5 May. The sale will realize some \$14.4 million which will be placed in investments to allow additional support for projects not normally funded or not adequately funded from other sources of revenue.

The sale of the property, which will provide the government with a consolidated lot between its School for the Deaf on 113 Street and the Longman Building on Belgravia Road at 116 Street, is entirely consistent with University policy, Dr. Horowitz explained. Land owned by the University essentially is land held in trust for the people of Alberta, said the President, and the revenue gained from the sale of such land will help our University achieve its

educational goals and objectives with regard to the people of this province. Among the benefits envisioned as a result of the sale are enhanced support for research projects, especially in the Humanities, Sciences and Social Sciences, and an increased number of fellowships, assistantships and visiting professorships.

The land itself will be put to good use by the provincial government. It is anticipated that a building to be used by Alberta Agriculture will be constructed on the site. In itself, this will lead to an increased liaison with the University's Faculty of Agriculture and Forestry, for which the Edmonton Research Station is used as a teaching and research laboratory. Other facilities, which will be of a low-scale, low-density nature, may include a treatment and rehabilitation centre for the multiple handicapped. In addition, provision will be made for the possible development of an LRT station and a bus interchange. □

## Fun at the Farm

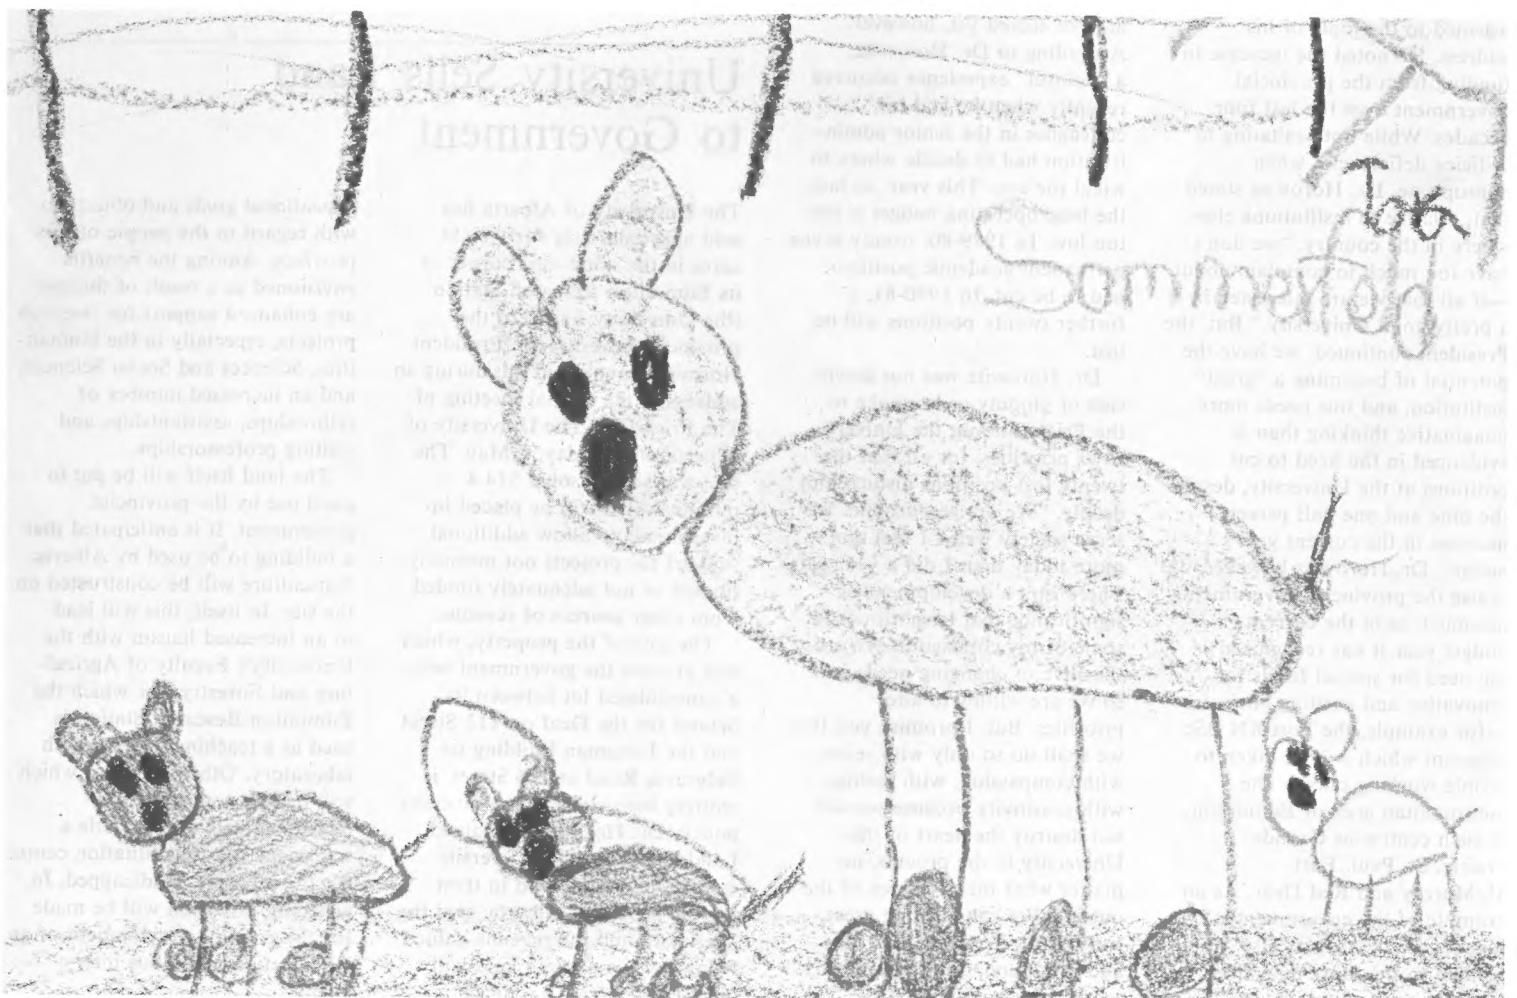

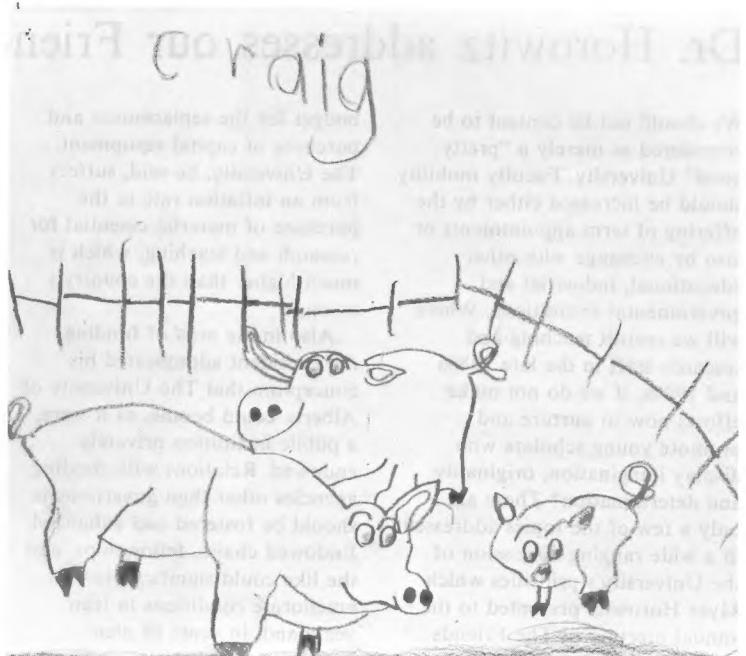

Between the time the 1980 University of Alberta Farm Tours commenced on 28 April and 9 May, 2,971 children and 520 adults have converged on the Edmonton Research Station. The extremely popular tours, conducted by the Office of Community Relations in cooperation with the Department of Animal Science, have been running now for nine summers. During the two-month program this year, eight tours will be conducted each day, Monday through Friday. As of 9 May 157 tours had been given, and virtually all the available tours booked!

The tours are designed for children between the ages of

three and eight years. Although quite often groups ranging in age to adulthood attend special tours. About seventy-five percent of the children who attend have never before seen a farm or live domestic animals in their farm environment.

The popularity of the farm has reached beyond the city itself. Already school children from Devon, Ardrossan, Sherwood Park, and St. Albert have turned out to the Farm, a few blocks south of the campus.

As can be expected, large numbers of children wandering about an unfamiliar environment will lead to numerous amusing situations. Watch for some of these in future issues of *Folio*. □

## Health Sciences Audiovisual Education: New Programs

The following programs have been acquired by the Audiovisual Library of the division of Health Sciences Audiovisual Education (HSAVE). They are housed in 2-54 Medical Sciences Building. For information about the programs, please contact the Audiovisual Library, telephone 432-3096. Until September, the Library's hours are from 8 a.m. to 11:45 a.m. and from 1:15 p.m. to 4 p.m., Monday to Friday.

CM-387: "Death, Our Constant Companion." A thirty-minute Videocassette. HSAVE

S. MacDonald/HSAVE, 1972. ST-306: "Factors Influencing the Response of Asthma to Therapy." A twenty-five minute slide/tape presentation. HSAVE E.R. McFadden/American Thoracic Society, 1979.

SS-019: "Occupational Health." A slide/script presentation. HSAVE/American Occupational Medical Association, 1978.

CM-386: "Unwanted Teenage Pregnancy." Videocassette. Nelson/HSAVE, 1973. □

## 75 And Growing

To celebrate Alberta's 75th Anniversary, the Edmonton Public Library has organized a project entitled *75 and Growing* in order to publish a collection of writing and art done by children in Edmonton. Organized with the cooperation of the Public and Separate School Boards, the main objective of this project is to give children in Edmonton, who represent the future of Alberta, an opportunity to express their opinions about our province and have their views published for circulation. The theme of the project is "Alberta—what do the children think of the province and what they expect from the province."

The Library will select writing (in English or French) in poetry, prose, drama, quotable quotes, and art by school children in Edmonton from Grade One to Grade Twelve, for publication. The theme for the writing and art can be the children's observations of Alberta's past, present or future. It can be a social comment. It can be an appreciation of an Alberta scene—city or country. It can be a comment on an activity—sports, art, theatre, dance, for example. It can be a

critique on our government. It can be an observation of their parents or their peers. It can be an observation of Alberta's relationship with the rest of the country. It can be their hopes for the future.

Children can pick up their entry forms from their schools or any Edmonton Public Library branch or booktrailer. Each child can enter his/her work in any one of the five categories. Initial selection will be done by the schools. Each school can submit one entry from each category from each grade. All entries have to be submitted by the schools to the nearest public library or booktrailer on or before Friday, 30 May, 5:30 p.m.

Final selection will be made in June by judges invited by the Library. Students whose work has been selected will be notified before the end of June.

Selected work will be published in November to coincide with the Children's Book Festival held in the Library. Selected students will be invited to a presentation ceremony to mark the end of the project. Some of the children's work may be displayed in library branches at the end of the year. □

## Engineering Professor Receives \$75,000 Grant

N. Berkowitz, Professor of Fuel Science in the Department of Mineral Engineering at The University of Alberta, was recently awarded an initial grant of \$75,000 by the Alberta Department of Energy and Natural Resources. It will be used to start the construction of a small continuous coal liquefaction pilot plant which, when completed, will also be used to test alternative liquefaction techniques and their applicability to Alberta coals. It will also be designed to afford an opportunity for research aimed at improved technology.

An important aspect of the facility is that it will provide an opportunity for training graduate students in new coal conversion

technologies and so contribute to the supply of qualified engineers and scientists in industry. Dr. Berkowitz is in the process of developing other coal conversion related facilities and it is hoped that research in this area will be supported by private industry as well as government agencies.

These facilities are seen as an important component in the University's increasing involvement in energy related research and development. The coal liquefaction plant, together with other existing facilities will allow The University of Alberta to maintain its leadership in energy related research and development particularly in the area of fuel conversion. □

## Institute for Coal Research Established

An Institute for Coal Research has been established in the Faculty of Engineering at The University of Alberta. The purpose of the Institute will be to provide a strong focal point for coal related research at the University by having the Institute encourage cooperation between researchers working on problems related to coal. The Institute will be located in the Department of Mineral Engineering but it is hoped to encourage cooperative research between staff members from other disciplines. It is expected that the coordination of research activities by the Institute will allow the development of an expanded, more integrated coal research program and, in turn, be beneficial to undergraduate and graduate courses that focus on coal related topics. In addition it is hoped that the Institute for Coal Research will be able to attract industrial research funds

as well as graduate students and postdoctoral research fellows.

N. Berkowitz, Professor of Mineral Engineering, will act as coordinator for the Institute. □

## New Prize in History

A new prize in History was announced on Friday, 2 May 1980. The prize, called "The James Barrington Prize in South East Asian History" has been endowed by a group known as the Friends of James Barrington to mark the pioneering efforts of Professor Barrington in the introduction of South East Asian History at The University of Alberta. The prize will be offered annually to the student who achieves the highest standard in South East Asian History. It is valued at \$300 and will be offered for the first time in the spring of 1981. News of the prize was communicated to Professor Barrington at a reception held in his honor at the Faculty Club. □

## Golden Bear and Panda 1980 Summer Sports Programs

The 1980 Golden Bear and Panda Summer Sports Programs commence 21 May at The University of Alberta. This year's program features specialized camps in thirteen activities: basketball, field hockey, figure/power skating, gymnastics, hockey, soccer, swimming, tennis, track and field, football, volleyball, wrestling, and athletic injuries. Each sports camp varies in duration and the number of sessions offered.

This summer marks the fourteenth season that the Department of Athletic Services has been conducting the summer sports camps. The programs are designed to provide each participant with the best available instruction in fundamentals and techniques in the sport which

he or she enters.

Instructors for the programs will include Golden Bear and Panda coaches, Physical Education staff members, and members of the various Golden Bear and Panda teams. Excellent instruction, combined with the outstanding facilities in the Physical Education and Recreation Centre, ensures the participants a tremendous educational experience.

For those interested, residence accommodation is available at the Lister Hall Complex. The Summer Sports Programs continue until 23 August. For information on specific sports camps, brochures, or for applications please call 432-5705. (W1-34 Physical Education and Recreation Centre). □

## Children in Zimbabwe

For many years people in the newly independent country of Zimbabwe have experienced the horrors of guerilla warfare. This has been the case especially in the rural districts where the exigencies of military action have affected all sections of the population with equal hardship. Among those affected by the prolonged warfare, perhaps those who have suffered most are the children of Zimbabwe. They have been maimed, made blind, burned, and orphaned. It is for such as these that the Jairos Jiri Association for Rehabilitation of the Blind and Disabled has sent out representatives to tour Europe and North America looking for financial assistance.

The Association founded several decades ago by Mr. Jiri (who is one of the three representatives visiting Edmonton from

25 to 27 May) is a "grass roots" organization which operates under great difficulty rehabilitation and vocational training centres in Zimbabwe. It is especially concerned with the plight of the children in that country.

Mr. Jiri and his two colleagues will visit the University on Monday, 26 May, to deliver a talk accompanied by a film on the subject of community health in Zimbabwe. At the time of going to press, the details of the visit were not finalized but more details will be advertised if possible in next week's *Folio*. For the time being, members of the University community are urged to contact Dr. J.B. Dossetor at the Division of Nephrology, The University of Alberta Hospital, telephone 432-6222. □

## Migrane Sufferers

Migraine headache sufferers are needed to participate in a series of studies at The University of Alberta. A number of people will be selected to take part in a treatment program offered this spring by Dr. George Fitzsimmons and colleagues in the Department of Educational Psychology. You may qualify for this study if you are between the ages of eighteen and fifty-five, have been suffering with at least one migraine headache per

month for at least the past two years, could attend two one-hour treatment sessions per week for four weeks, and are not using oral contraceptives. Those selected for the treatment program will be asked to pay a registration fee of \$40 to defray material costs during their time in the study. If you would like to register for this study please call 437-2092 between the hours of 9 and 11 a.m. weekdays. □

## Grants-in-Aid for Northern Research

The following people have been awarded grants by the Boreal Institute for Northern Research at The University of Alberta. The period of the grants is for 1980-82 and they are disbursed under the Institute's federal and provincial governments' grant-in-aid programs. Unless stated otherwise, all researchers are associated with our University.

## service information

*Information must reach the Editor by 9 a.m. on the Thursday prior to publication. Written notification is necessary. Notices should be sent to 423 Athabasca Hall*

## Notices

#### *The Retirement of Norma Freifield*

Norma Freifield, Head of Circulation Services, will soon retire after 39 years of service to The University of Alberta. Not only was she one of the guiding figures behind the growth of the University Library, but she was also personally involved in many activities of the University community, especially at the University Women's Club.

To allow University staff the opportunity to congratulate Miss Freifield on her many years of service, the Library has arranged a reception at the Faculty Club on Wednesday, 21 May at 3:30 p.m. in the Papaschase Room. All friends and colleagues are cordially invited to attend.

RSVP to Mrs. Shirley Meyer, 432-3790.

#### *Campus Law Review Committee*

The Campus Law Review Committee will meet on Thursday, 29 May, at 9 a.m. in 3-17 University Hall. On the agenda is the Review of the Code of Student Behavior.

Anyone wishing to make a written or personal submission should give notice of such intention to Mrs. L. Plaskitt, 2-1 University Hall, telephone 432-4715.

#### *Biofeedback Workshop*

A biofeedback workshop for clinicians will be held 23 and 24 May in 129 Education South. Workshop coordinator, Dr. G. Fitzsimmons, Department of Educational Psychology,

has announced three specialty routes: Physical Medicine, Behavioral Medicine, and Dentistry. Advanced registration fee of \$75 should be sent to Evangeline Walker, Educational Psychology, Edmonton T6G 2G5, with checks payable to the Biofeedback Association of Alberta.

#### *Convocation: Volunteers Required*

The Office of Personnel Services and Staff Relations has been asked to arrange for twenty-five volunteers to act as ushers for the Spring Convocation on the afternoons of 2, 3, 4, and 5 June. All departments and Faculties are asked for their support. Ushers are required for approximately one and one half hours and should report at 1:15 p.m.

After they have finished their duties, ushers may attend the convocation exercises or may take the rest of the afternoon off.

*The Retirement of Mr. Rousell*  
Murray A. Rousell, Comptroller, will retire from his position on 31 May 1980 after thirty-four years of service to The University of Alberta. A reception in his honor will be held at The Faculty Club, in the Upper Lounge, on Thursday, 22 May, from 4 p.m. to 7 p.m.

Mr. Rousell's many friends and acquaintances are invited to attend the reception to extend their wishes to him on his retirement.

For more information, please telephone Mrs. E. Kvill at 432-4684.

#### *Volunteers Required*

The University of Alberta Hospital requires volunteers in over twenty-five areas within the facility. The hospital offers a wide variety of jobs and personal experience. People who have some spare time and would like to help their fellows, should contact the Hospital Volunteer Office in the Main Building or should telephone 432-8428.

#### *Historical Interpreters Required*

Volunteer Historical Interpreters are needed at the Fort Edmonton Park. Although a special training program will be offered for such interpreters in September, those who wish to become involved in learning—and helping others to learn more—about our city's exciting past can do so now. "On the job" training in such crafts as quilting, spinning, beading, needle crafts, leather work, for example, is already being offered at the Park. For further information please telephone Fort Edmonton Park at 436-5565.

#### *Ssong-Jeon Association*

*Folio* has received a request from the Ssong-Jeon Association of South Korea to assist in bringing its activities to the attention of members of our University community.

According to the information received, the Ssong-Jeon Association is an organization of students who engage in community work, discussions of

national and international concerns, and research over a wide range of issues. The Association would like to correspond with interested people on an individual basis. For further information, please write to the Ssong-Jeon Association, P.O. Box 36 Jeon Ju, Jeon-BUK520, South Korea.

## Scholarships, Fellowships and Awards

#### *Theatre Scholarships*

The Houselighters of the Citadel Theatre wish to publicize their scholarship program aimed at people considering a career in theatre. The awards include the Dame Peggy Ashcroft Scholarship, the John Neville Scholarship, the Kayla Shorror Award of Merit, and the Jonas Applegarth Scholarship. These awards are named in honor of the contributions which these people have made to the Citadel Theatre. The Dame Peggy Ashcroft Scholarship and the Kayla Shorror Award of Merit are open to all recognized fields of theatre study. The John Neville Scholarship is offered in classical theatre, and the Jonas Applegarth Scholarship is specifically designed to assist Indian or Métis students.

Auditions are not required of applicants but full résumés, including letters of recommendation from teachers, should be submitted as soon as possible to Mrs. Louise Rosen, 163 Wolf Willow Crescent, Edmonton, Alberta T5T 1T3.
